

AI-Driven Conversational Computing

A Conversational AI platform for the enterprise.

The Company

Avaamo is a deep-learning software company that specializes in conversational interfaces to solve specific, high impact problems in the enterprise. Avaamo has developed fundamental AI technology across a broad area of neural networks, speech synthesis and deep learning to make conversational computing for the enterprise a reality. Avaamo provides an enterprise AI platform that tightly integrates tooling, data, and enterprise connectors to ensure designers, data scientists, and developers can design and deploy complex conversational applications in weeks.

Founded by enterprise veterans from TIBCO, SAP, Genesys and IBM, Avaamo is based in Los Altos, California.

DX Avaamo Dialog Experience™

Avaamo DX™ is a comprehensive conversational AI platform that helps enterprises to build intelligent virtual assistants for customers, employees, and suppliers. Avaamo delivers a second generation conversational AI experience that executes rich multi-turn conversations capable of handling queries in customer service, generating quotes in insurance, or answering claims inquiries in healthcare.

Avaamo’s tightly integrated platform uniquely combines tooling, data and various types of machine learning tools and enterprise connectors to ensure designers, data scientists, and developers can design and deploy complex conversational interfaces in weeks.

VX Avaamo Voice Experience™

Avaamo VX™ is an AI voice platform that incorporates patent pending advances in speech signal enhancement and natural language generation to deliver enterprises with a “voice layer” to replace dated IVR and other Call Center technologies or simply build a new “human” interface with your employees, customers, and suppliers.

Avaamo VX™ generates human-like natural expressive conversations with users to handle claims inquiries in insurance, scheduling doctors in healthcare or improving the voice experience in the car. Using neural network driven voice control, Avaamo is able to deliver an unmatched voice experience for global brands.
